

Appropriations Status (as of July 26, 2005)

FY 05 total funding: \$2.183 billion (\$1.884 billion in grant funds and \$297.6 million in emergency funds)

FY 06 total funding: Adm. \$2 billion (\$1.8 billion in grant funds and \$200 million in emergency funds)

House Passed - \$2.006 billion (no emergency funds)

Senate Reported: \$2.183 billion (\$1.883 billion in grant funds and \$300 million in emergency funds)

Note:

1. The new formula only kicks in when the total amount of basic grant assistance exceeds \$1.975 billion. Since the program sets-aside \$27.5 million for leveraging and REACH, the new formula only kicks in when the total appropriation exceeds \$2 billion.
2. Congressional and Administration staff are currently discussing how to run the allocation of funds over \$1.975 billion. As such, NEADA will not produce any additional state-by-state numbers until this is resolved.
