About Energy Solutions

Weatherization

Utility Programs

Research & Training Center

CHP Energy Solutions promotes healthier, safer, and more energy-efficient homes through the federal Weatherization Program, Utility-sponsored programs, and a leading Research and Training Center.

Heat Pumps – they are so darn expensive!

Late 2020-The Goal:

Install a Heat Pump in Every Home we Weatherize

Challenges:

- COVID- Supply Chain Issues
- Lack of trusted HVAC contractors
- No Production level HVAC Installers
- High cost of Heat Pump Installs
